THE PEOPLE'S PAPER.
—THE—
HERALD.
 SALT LAKE
 DAILY HERALD.

The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convinces the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economical administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the establishment, we confidently promise to make the SALT LAKE DAILY HERALD a better paper than ever.

SALT LAKE SEMI-WEEKLY HERALD
 This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same manner, progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly high favor at the hands of the people.

SALT LAKE WEEKLY HERALD.
 The demand for a WEEKLY HERALD has been very pressing during the past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main line of travel and who are not accommodated with mail service often than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the HERALD for reading abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family circle, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our aim will be to make the WEEKLY HERALD a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit.

Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the literary and scientific world. Nothing will be admitted to the columns that has not first been carefully prepared and revised.

CHINESE CHATTER.

Chicago Labor League Becomes Threatening—An Example Made of a New York Benthon.

Chicago, 11.—The Trade and Labor League, to-day, received a communication from the St. Louis branch urging their co-operation in a trades union strike, to be inaugurated on April 1st, and to comprise all operations in the west. The question of Chinese immigration was discussed and the report of the executive committee was read, setting forth the moral and industrial disadvantages arising from the presence of Chinese here, and recommending that a meeting be held on Monday night, to take action thereon. Such a meeting will doubtless be held.

New York, 12.—San Jose, a Central coast town, convicted, yesterday, in the court of sessions, of assault and battery in firing a pistol at Mary Grayson, on the 10th of February, was arraigned in the court, to-day, for sentence, and his counsel made a strong appeal for mercy on behalf of his client, and asked that he be merely fined. Judge Foster said: "I cannot grant your request. There are hundreds and thousands of prisoners in our country, coming here, I understand, and it will not do for me to allow him to go abroad among them and convey to them the impression that they can get away with impunity. I will, therefore, sentence you, San Jose, to the penitentiary for six months."

Foreign Miscellany.

London, 11.—In the House of Commons, to-night, the amendments in the House of Lords to the Irish distress bill were agreed to.

Candahar reports, brought in by spy, say Mohammed Jan's following is increasing enormously. His agents are recruiting in all directions.

Lowell, minister of the United States, presented his credentials to the Queen yesterday.

Vladimir 11.—Herz Galavay has been appointed minister of finance for Austria-Hungary, in place of Baron Von Hofmann, resigned.

London, 12.—With the object of showing the utmost courtesy to well-known visitors from America, several leading London clubs have resolved to admit such gentlemen as honorary members for three months.

Consular and ministerial journals declare the budget statement satisfactory. The Daily News says the budget is framed on the "happy-go-lucky" principle. The Times says the budget is unsatisfactory and it will not stir the pulse of the country in favor of the ministry.

Private advices from Peru announce that the consular officer of London, has been imprisoned and his property confiscated, on account of a contract negotiated by him with the Credit Industral de Paris, recently, which the Peruvian government repudiated. The property of Senator Rivas, one of the commissioners who negotiated the contract, is also sequestered.

Berlin, 12.—The Government Post states that the Russian ambassador, the collection of diplomatic documents attesting the hostile intentions of Russia towards Germany. The volume will include papers bearing on the German-Greek propositions to France for the conclusion of an anti-German alliance.

St. Petersburg, 12.—General Melnikoff was saved by a chain shirt. When Vindicty attempted to assassinate him the bullet tore a hole in his coat, but was arrested by the protecting mail.

Northern Pacific Land Grants.

Washington, 11.—At the extra session of Congress the bill to extend the time for the completion of the Northern Pacific Railway was referred to a sub-committee of the House committee on railroads, of which Senator Stanford is chairman. The bill, as amended, contains provisions for the extension of the time for the completion of the railway to the year 1885, and for the extension of the time for the completion of the branch lines to the year 1890. The bill also provides for the extension of the time for the completion of the railway to the year 1885, and for the extension of the time for the completion of the branch lines to the year 1890.

The Ischanus Question.

New York, 12.—Captain Fads, now in command of the U. S. S. Albatross, is confident of carrying through his ship railway, and thinks "Lesen's" canal project is dead.

A. G. Menzies, in the dispatches to-day, with a view to obtain additional data respecting the Nicaragua route for a canal. His statement is that the canal would have the greatest cutting 150 feet; we think this may be reduced to 100 feet by making a passage through the valley in which the flow of water is but 500 cubic feet per second. He expected to return in 12 or 14 weeks, and then to be able to put government in full possession of all that is necessary to know about the canal project of any kind in Nicaragua.

Grant Among the Grangers.

City of Mexico, 9.—General Grant arrived at Puebla last night, and was saluted by a salvo of artillery. The day after to-morrow he will visit the people. General Grant was met by a government committee, and subsequently by the city council. He was escorted to the palace by General La Vidua, and accompanied by a band of music and a procession. Two bands played till a late hour before the palace. General Grant visited the governor of the state this morning.

Welcoming the United States.

Lisbon, 12.—The ministerial journal, *Progreso*, referring to the rumor of the intention of the United States to found colonies on the west coast of Africa, says Portugal should congratulate herself on seeing the United States approach her colonies, because of the rights of Portugal, but would, on the contrary, guard them against the encroachments of England.

Chippewa Chiefs.

Chicago, 11.—Nine Chippewa chiefs, from Lac Du Flambeau, River, and Lac Court, Ojibwa Reservation, were in the city to-day, en route for Washington, under charge of Agent Mahan. They propose securing an understanding respecting their rights and duties on their reservation.

Hayden.

New York, 11.—Hayden, thrice tried for murder, is now on his way to the gallows, where he will be executed on a building of 1,000, among which was Jesse Billings, the Saratoga wife murderer.

KEARNEY.

His Arrest Generally Approved—The Beginning of the End.

New York, 12.—The Herald says of Kearney: The arrest of this blustering, foul-mouthed incendiary, at his breakfast table, yesterday morning, attests the vigor which has been flow into the administration of justice in San Francisco by the Citizens' Protective Union, which is the name assumed by the new vigilance committee. In San Francisco a vigilance committee, whatever title it may deem fit to adopt, is a thing of potent.

Of Kallio's proclamation, the Herald says: Behind his cloud of bluster, it was easy to see that the terrified Kallio had completely backed down, and that he was trying to raise a tremendous dust to cover his retreat. His grotesque lies, his air of authority, his brazen denial that the hoodlums had ever committed any violence, his ridiculous boresome and swagger, did not conceal the fact that the hoodlums had been forced by their fears to make "a change of base," and that the sole anxiety of the cowardly Kallio was to get out of the dangerous situation without confessing his condemnation. He indulged in "tail talk" because in this country speech is free, and he thought of bravado words to cover the white feather.

Consoling himself in Kearney, the Herald continues: His bravado probably has never been against law, but as he has never been indicted for indulging in it, he thought it safe to do what he had done hundreds of times before. He was too ignorant to know that he was violating law and making himself liable to arrest and punishment. The creation of a new vigilance committee is at least a guarantee that all legal measures against the hoodlums will be adopted, and enforced up to the extreme limit of the law. This is a good sign. Kearney's attempt to cover his cowardice by impudence and produce bravado has taught him that there is a limit even to freedom of speech, which this ignorant scoundrel supposed from his experience might safely pass all bounds of decency and run riot in the wildest extremes of profanity, blasphemy, obscenity and threats against the lives of citizens whom he might choose to point out to his followers by some as objects of vengeance. The vigilance committee, on the other hand, has taught him that there is a limit even to freedom of speech, which this ignorant scoundrel supposed from his experience might safely pass all bounds of decency and run riot in the wildest extremes of profanity, blasphemy, obscenity and threats against the lives of citizens whom he might choose to point out to his followers by some as objects of vengeance.
